Course Requested

Previous Instruction?

I am registering my child for credit/acceleration examination, and I understand that a score of 80% or better (without prior instruction) or 70% (with prior instruction) is required for course/subject credit. I also understand that if a student is given credit in a subject on the basis of an examination, then the examination score is entered on the transcript, and this score will not be used when computing a student's GPA and class rank.
